4. There is to be only one contesting horse in the arena at the time during the barrel race without exception.
5. The starting gate or gates will remain the same throughout the entire futurity go-rounds.
6. The start and finish line and the position of the barrels must be permanently marked for the entire futurity go-rounds.
7. The horse must enter the arena in forward motion and continue in forward motion. He may be required to run in and out of the arena only when an acceptable centrally located gate or gates safely permits or by special Board of Directors approval. Horse cannot make a circle in the area prior to the timer.
8. A contestant cannot train or circle during competition. No more than one circle on each barrel while competing. No stopping or whipping a horse in the alley upon completion of the run. The alley belongs to the next contestant. Automatic \$10.00 fine. Continued abuse of this rule will constitute a minor violation.
9. The start/finish line must be the same.
10. Any time contestant crosses the starting line, time will begin.
11. Contestant will be assessed a five (5) second penalty for knocking over a barrel. Touching a barrel is permitted.
12. Should barrel be knocked over and it sets up on opposite end, the five (5) second penalty will be assessed.
13. During competition if barrel is moved off marker, judge must oversee re-setting over barrel correctly.

JUDGES

1. There must be one (1) or more judges in the barrel race that are not contesting in that event.
2. Judges should check barrel and eye markers prior to each go-round to see they are properly in place.
3. Line judge should check each contestant for dress code and to be sure that the ground rules are followed.
4. Judges shall be designated and announced prior to the running of the first go-round of the futurity.
5. The barrel race judge shall have the right to stop the barrel race during a performance due to "bad ground" conditions. The arena shall be reworked and the judge shall determine if there will be any reruns.

RERUNS

1. Reruns shall be given if a timer fails to work or if barrels are not placed properly on markers. No penalties will carry over to rerun. Contestant shall be given the choice to rerun immediately or at the end of the class.

DISQUALIFICATION

1. Contestant will be disqualified for not being ready to contest when their name is called. Contestant will be called three (3) times by announcer and if they do not present themselves to compete in the order originally drawn, they will be disqualified.
2. Contestant will be disqualified for missing the pattern.
3. Contestant will be disqualified if run is made out of designated order or until signal is given that the arena is clear.
4. Must have current papers (negative coggins, health & registration) or may be fined and/or disqualified.

GROUND PATTERN

1. Committee is asked to prepare ground in the arena to be consistent throughout the event.
2. Number of contestants to run during a drag should not exceed five (5). There shall be a drag of the tractor around the barrels after every five (5) numbers or runners or less.

BARREL PATTERN

1. The barrel pattern for futurity competition should never exceed these measurements.
 - a. 90 feet between barrels 1 and 2.
 - b. 105 feet between barrel 1 and 3 and between barrel 2 and 3.
<<< INSERT GRAPHIC HERE >>>
2. The following shall be used in smaller arenas.
3. Barrels 1 and 2 should be at least 18 feet from the sides of the arena. In extra small arenas they may be less, but in no instance should they be any closer than 15 feet from the sides of the arena.
4. Barrel 3 should be at least 36 feet from the end of the arena and no closer than 25 feet.
5. Person measuring and marking the barrel position MUST give a copy of the measurements to the futurity secretary and judge or will be subject to fine.
6. The barrels must be marked using two 300 foot measuring tapes. Add 5 feet on to the tape in order for correct measuring between 1 and 3 and 2 and 3. The person measuring the barrel pattern must make an arc on the ground from barrel 1 to barrel 3 then from barrel 2 to barrel 3. Where the arc crosses is there the third barrel marker must be placed. This will insure equal distance for barrel racers who run to either the right or left first barrel. The starting line must also be corrected measuring back from barrel 1 and barrel 2, so the distance on both sides is the same to insure barrel racers going to the right or left the same opportunity. Permanent markers shall be placed on both sides to indicate the starting line.
7. You may use a pointed metal stake, horse shoe or can with a chain or rope attached to the end of it. Cover the object, down in the ground, leaving only the chain or rope on the top of the ground.
8. Markers should be buried at the location of each barrel, so the barrels will be in the same place during each complete go-round.
9. Where the electronic timer sets, permanent markers should be set also.
10. Electronic timers should be placed on the score line no closer than the width of the first two barrels for the electronic eye to be centered in each performance.
11. Barrels must be set on the inside of the markers.
12. The barrel markers and the electronic eye markers must be checked every go-round. If they have been pulled out they must be re-staked before the go-round begins.
